

# Truck Flow Chart

Trucks must be probed before going to the elevator

Inbound trucks will travel East or West on Rt 40 to Harvester Street. Turn North until you reach the Probe Station at which time you will proceed on the North side of the terminal traveling around the perimeter of the complex until you reach the probing area.

After you are probed, you will travel South back to Rt 40 and then turn East until you reach the SMC truck entrance sign.

Ways to communicate : SMC Probe Station 217-857-2252

SMC Elevator 217-857-2287
